

Sterdivante Tolliver

What do you want to build today?

How about a career in engineering?

Pathway To Engineering can show you how.

If you like building things and enjoy math and science, then you may make a great engineer.

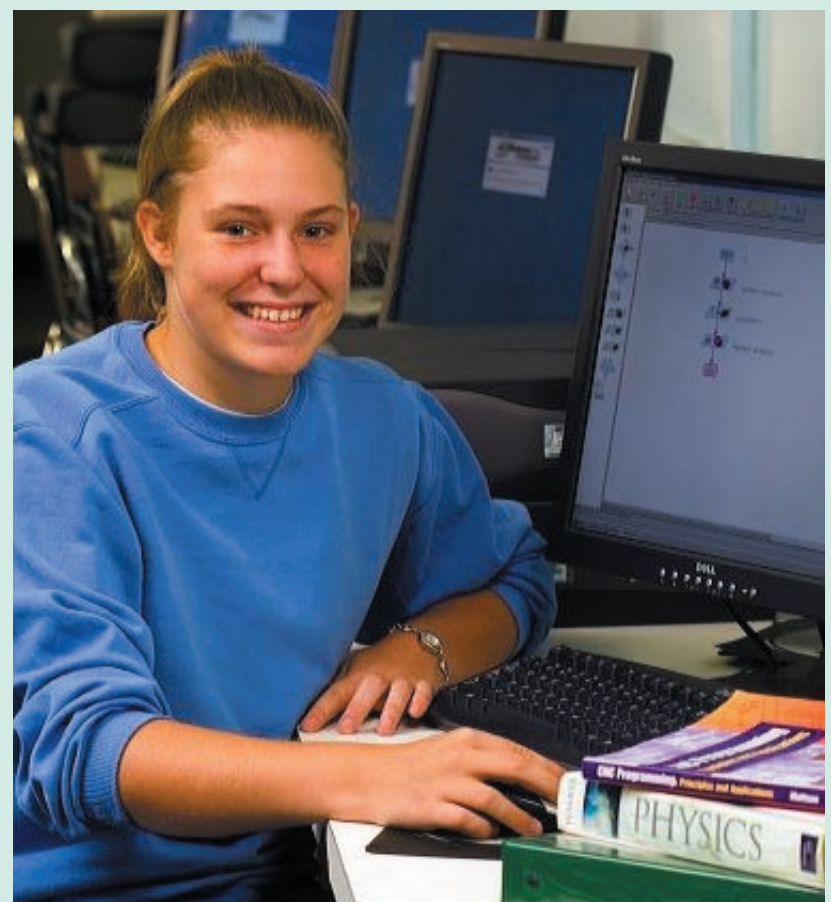

Pathway to Engineering from Project Lead The Way gives young women and men like you the chance to learn the skills and build the confidence to succeed in a college engineering or technology program.

Project/problem-based courses that may be available at your school include:

- **Principles of Engineering**
- **Introduction to Engineering Design**
- **Digital Electronics**
- **Computer Integrated Manufacturing**
- **Civil Engineering and Architecture**
- **Biotechnical Engineering**
- **Aerospace Engineering**
- **Engineering Design and Development**

Pathway To Engineering classes are relevant, rigorous, and reality-based — and may put you on the path to a rewarding career.

Ask your teachers, principal, or counselor about signing up for Pathway To Engineering classes.
