

# PLTW Core Training Computer Hardware and Software Specifications | App Creators

Welcome to PLTW Core Training. We're excited you have decided to become a PLTW Teacher and want to ensure you feel prepared to attend Core Training. One key step to successfully starting your Core Training experience is to arrive prepared with the hardware and software required for your courses. Below you will find the computer hardware requirements, links to necessary software, and a technology preparation checklist designed specifically for this course.

## PLTW Core Training Preparation Check List

- Work with your school or district's IT department to acquire the device(s) you need, add the required websites to your allow list, and install the software needed for the course.
- Once you have downloaded the software, be sure to open the software and use it while on your school or district site to be sure that everything is working properly.
- Request administrator rights to your device. While this is not always possible, it's very useful to have if you need help troubleshooting issues during Core Training.
- Complete all software tutorials in the prerequisite materials.

## Software Required

- **MIT App Inventor**

## Hardware Required

1. Laptop or Chromebook which meets or exceeds the specifications below.
2. External mouse
3. Headphones or earbuds to plug into computer
4. The App Creators unit requires each student and teacher to have a PC or Mac **AND** an Android tablet or iPad. Amazon Fire tablets are not compatible with App Creators. It is highly recommended that students have a second display/monitor for use with their PC or Mac to allow for simultaneous programming and curriculum access.

### PLTW Gateway Android-Enabled Chromebook Specifications

(Click [here](#) for Google Education Site)

Screen Size	11 inch +
Processor	1.0 Ghz+
RAM	4 GB +
On Board Storage	16 GB +
Graphics	Integrated
Camera	Must have an onboard camera, front facing or world facing
USB Connectivity	Must have a USB port and drivers
Operating System	Chrome OS Current version (updated continuously)
Network	WIFI enabled (cellular/LTE not required); Must have wireless network connectivity*
Android App Compatibility	We only support Android-enabled Chromebooks for the App Creators Course. The list of makes/models of Android-enabled Chromebooks is maintained by <a href="#">Google here.</a>

### PLTW Gateway App Creators Computer Specifications

Specification	Minimum	Recommended
Processor	Intel® or AMD processor 2.0 Ghz +	Intel® or AMD processor 2.3 Ghz +
RAM	4 GB +	8 GB +
Hard Drive	250 GB +	250 GB +
Video *	Graphics 512 MB +	Graphics 1 GB +
Operating System	Windows 7, Windows 8.1, or Windows 10, Windows 11 64 bit operating system. Mac device with OSX 10.13+.	Windows 7, Windows 8.1, or Windows 10, Windows 11 64 bit operating system. Mac device with OSX 10.15+.
Network	Must have network connectivity (wireless and/or wired)	Must have network connectivity (wireless and/or wired)
Other Basic Software <b>(complete software listing here)</b>	<ul style="list-style-type: none"> <li>We recommend the most current version of Firefox or Chrome for optimal utilization of myPLTW.</li> </ul>	<ul style="list-style-type: none"> <li>We recommend the most current version of Firefox or Chrome for optimal utilization of myPLTW.</li> </ul>

### PLTW Gateway App Creators Android Tablet Specifications

Screen Size	7 inch +
On Board Storage	16 GB +
Operating System	Android v4.4.2 +
Network	WIFI enabled (cellular/LTE not required); Must have wireless network connectivity*

On Board Storage	16 GB +
------------------	---------

PLTW Gateway iPad Specifications	
Supported Models	Models that can update to iPadOS 15 or higher. <a href="#">See list of models.</a>
Screen Size	7.9 inch +
On Board Storage	16 GB +
Operating System	iOS 15 + (MIT App Inventor may not work on iOS less than 13.0)
Network	WIFI enabled (cellular/LTE not required); Must have wireless network connectivity*

### Core Training Technology Preparation Dos and Don'ts

- Do give yourself plenty of time before training to acquire the right device(s), whitelist the suggested websites, and install needed software. We suggest handling this a few weeks before training or before your school year ends.
- Do open and test the software before you arrive onsite for training to be sure it is working. At times, participants find that they are unable to open software if they try to open it for the first time while they are off their school or district's network. To prevent this, open the software while on your network and test it.
- Do try to acquire administrative rights to your device. While this is not always possible, it's extremely helpful if there are any issues while you're at training.
- Do complete all prerequisite training, including any software tutorials.
- Don't use a brand-new or unopened device that you've never logged into before.

**Allow list:** Please see our network allow list for ports and websites [here](#). Allowing websites in accordance with this ensures that teachers and students can access and use the software, websites, and applications required to offer PLTW coursework.
