

# PLTW Core Training Requirements and Software | Principles of Biomedical Science

Welcome to PLTW Core Training. We're excited you have decided to become a PLTW Teacher and want to ensure you feel prepared to attend Core Training. One key step to successfully starting your Core Training experience is to arrive prepared with the hardware and software required for your courses. Below you will find the computer hardware requirements, links to necessary software, and a technology preparation checklist designed specifically for this course.

## PLTW Core Training Preparation Check List

- Work with your school or district's IT department to acquire the device(s) you need, add the required websites to your allow list, and install the software needed for the course.
- Once you have downloaded the software, be sure to open the software and use it while on your school or district site to be sure that everything is working properly.
- Request administrator rights to your device. While this is not always possible, it's very useful to have if you need help troubleshooting issues during Core Training.
- Complete all software tutorials in the prerequisite materials.

## Software Required

- [Graphical Analysis](#)

## Hardware Required

1. Laptop or Chromebook, which meets or exceeds the specifications below, and has all required software appropriately installed
2. External mouse
3. Device capable of taking photos and videos such as a digital camera, smartphone, tablet, or laptop with webcam
4. Headphones or earbuds to plug into computer

**PLTW Biomedical Science Human Body Systems Computer Specifications**

Specification	Minimum	Recommended
Processor	Intel® or AMD processor 2.0 Ghz +	Intel® or AMD processor 2.3 Ghz +
RAM	8 GB +	12 GB +
Hard Drive	250 GB +	250 GB +

Video *	Graphics 128 MB +	Graphics 256 MB +
Operating System	Windows 10, Windows 11 64 bit operating system. Apple device with macOS 11.7+.	Windows 10, Windows 11 64 bit operating system or Apple device with macOS 12+.
Bluetooth	Student and teacher devices must be Bluetooth enabled	Student and teacher devices must be Bluetooth enabled
Network	Must have network connectivity (wireless and/or wired)	Must have network connectivity (wireless and/or wired)

#### PLTW Biomedical Science Chromebook Specifications

Screen Size	11 inch +
Processor	1.0 Ghz+
RAM	4 GB +
On Board Storage	16 GB +
Graphics	Integrated
USB Connectivity	Must have a USB port and drivers
Operating System	Chrome OS Current version (updated continuously)
Network	WIFI enabled (cellular/LTE not required); Must have wireless network connectivity*
Bluetooth	Student and teacher devices must be Bluetooth enabled

**PLTW Biomedical Science Android Tablet Specifications**

Screen Size	7 inch +
On Board Storage	16 GB +
Operating System	Android v10+
Bluetooth	Student and teacher devices must be Bluetooth enabled
Network	WIFI enabled (cellular/LTE not required); Must have wireless network connectivity*

**PLTW Biomedical Science iPad Specifications**

Supported Models	Models that can update to iPadOS 15 or higher. <a href="#">See list of models.</a>
Screen Size	7.9 inch +
On Board Storage	16 GB +
Operating System	iOS 15 +
Bluetooth	Student and teacher devices must be Bluetooth enabled
Network	WIFI enabled (cellular/LTE not required); Must have wireless network connectivity*

**Core Training Technology Preparation Dos and Don'ts**

- Do give yourself plenty of time before training to acquire the right device(s), whitelist the suggested websites, and install needed software. We suggest handling this a few weeks before training or before your school year ends.
- Do open and test the software before you arrive onsite for training to be sure it is working. At times, participants find that they are unable to open software if they try to open it for the first time while they are off their school or district's network. To prevent this, open the software while on your network and test it.
- Do try to acquire administrative rights to your device. While this is not always possible, it's extremely helpful if there are any issues while you're at training.
- Do complete all prerequisite training, including any software tutorials.
- Don't use a brand-new or unopened device that you've never logged into before.

**Allow list:** Please see our network allow list for ports and websites [here](#). Allowing websites in accordance with this ensures that teachers and students can access and use the software, websites, and applications required to offer PLTW coursework.
