

PLTW Launch Modules Overview K-5 Washington State

This curriculum guide provides standards connections for 4 bodies of standards:

- 1. Washington State K-12 Science Learning Standards (WSSLS)
- 2. Washington State K-12 ELA Standards
- 3. Washington State K-12 Mathematics Learning Standards
- 4. Washington State Computer Science K-12 Learning Standards

Each PLTW Launch Module integrates science performance expectations (PEs) with science and engineering practices (SEPs), disciplinary core ideas (DCIs), and crosscutting concepts (CCCs), while focusing on engineering, computer science, or one of the three areas of science outlined in the WSSLS:

- Physical Science
- Life Science
- Earth and Space Science

More information can be found in the *Teacher's Guide*, including module specific standards connections and the Curriculum Framework. The framework offers a bigpicture view of the module that includes the desired results of student learning, an overview of the module's scaffolded approach to learning, and assessment opportunities found in each activity, project, and problem.
